Mr. R. Jay Marshall
Genwal Coal Company
P. O. Box 1201
Huntington, Utah 84528

Dear Mr. Marshall:

Re: Newly Formatted Mine Plan, Completion of Division Order #93A, Genwal Coal Company, Crandall Canyon Mine, ACT/015/032, Folder #3, Emery County, Utah

The Division has received your responses to deficiencies which were identified in your newly formatted Mining and Reclamation Plan during the Permit Renewal Process. The responses are considered appropriate for incorporation into your MRP and are hereby approved as part of your plan. This does not necessarily mean that all of the deficiencies have been adequately addressed. We are continuing to review your responses and will inform you of any outstanding issues. Your commitment to correct the outstanding deficiencies satisfies the requirements of Division Order #93A. The Division Order is hereby considered completed.

We need to move forward and want to establish that your new plan, with the updated responses to deficiencies, is now the approved plan and will be the one you will be held to. Any remaining deficiencies or problems in your plan will be dealt with as they are identified. We will no longer be working out of the old plan.

Thank you for your cooperation during the permitting process. Please call if you have any questions.

Sincerely,

Daron R. Haddock
Permit Supervisor
